

## **Emy Clemence** – Artist statement

**Emy Clemence** is a Bonny Doon artist and storyteller with a deep love for color, frenetic exchanges, surrealism, and dream witchcraft. Vowing to always embrace the self as a primary audience and to only use grey as truly needed, Clemence has been able to allow art to be a full-time, full-spirit lifestyle.

In 2021, they had their work woven into tapestries for the first time, and in 2023 they renewed their idea-focused work, leading to more silliness, varied textures, and experimental pieces.
