"Bonny Doon Studio Tour – 2024"

I've been exploring the figure for many years in just about any medium I get my hands into: clay, watercolor, charcoal, oils, pastels, pen & ink, acrylics, etching, wire-form. After over 50 years, I'm mostly into working with clay and figures still emerge, along with functional ceramic works.

I have created many ceramic rollers & stamps, each with a unique design which impart an impressed image/texture into my clay pieces. Typically, I work in sets of 4 or more.

My husband and I set up our ceramic studio workspace in 2016, shortly before I was impacted with a severe health event. After a 2 year hiatus from any creative adventures, I am using our ceramic studio to create to my heart's content. It has been good therapy to help me gain back my earlier artistic abilities My web site, www.LindaLevy.com contains examples of my artwork.

All the functional pieces are made from recycled clay, glaze fired to Cone 6 (2200 F), and are all food safe, oven and dishwasher safe.

Enjoy!

A handwritten signature in black ink that reads "Linda A. Levy". The signature is written in a cursive, flowing style.
